

# Health Equity Data & Delivery Science Certificate Program

Hosted by the Mongan Institute at Massachusetts General Hospital

## Key Details

- October 2024 - May 2025
- Five in-person, hands-on workshops
- Weekly expert-led lectures & interactive virtual sessions
- 3-4 hours/week time commitment
- Tuition \$9,500

## Who is this program for?

- Residents, fellows, post-docs
- Early career investigators
- Mid-career clinicians transitioning to a research career
- Developing learning health system leaders

## Benefits

- Flexible hybrid format minimizes time away from patient care & research
- Practical & action-oriented curriculum
- Led by experts in applied health equity data & delivery science
- Develop your own research idea & design
- Build your professional network

## What can participants expect?

- Access to expert faculty & facilitators
- Choice of research concentration
- Small group interactive learning
- Build connections with colleagues/peers
- Skills & tools to lead transformational change in healthcare

## Program Goal

This program will equip clinician scientists & early career researchers with practical knowledge & fundamental skills in health care data science, health care delivery science, & health equity science.
